DETAILED SCORING

- Yes
- No
- Maybe

Would the attendants recommend the training to another Mott MacDonald colleague?

- Yes
- No

Would the attendants be interested in joining Mott MacDonald's Privacy Practitioner's Network?

TESTIMONIALS

“Wide-ranging topic area with examples. Invaluable connections made with attendees from around the Group”

“Michael is clearly an expert in the data privacy space. He managed to point out the salient privacy issues and highlight the possible solutions in every scenario that us participants raised with him whether it was a real life circumstance faced by us or a hypothetical situation”

“The session was really informative to know how significant maintaining the transparency and privacy with regards to any Data”

“Real example discussion”

“The host discussed some interesting scenarios”

“We should have this training i.e. every 3-4 months to update and case study to aware of”

“Was very good. Don't think everyone knew everyone, and it was a small enough group (5-6 people) that we could have done intros at the start. May have helped some conversations and the angles that people were bringing”
